

UNIVERSIDAD METROPOLITANA
DE CIENCIAS DE LA EDUCACIÓN
DIRECCIÓN DE POSTGRADO
DOCTORADO EN EDUCACIÓN

INVITATION LETTER

Santiago, May 12, 2021.-

Dr Johannes Perna
Department of Chemistry
University of Helsinki

Dear Doctor:

The Doctoral Program in Education at *Universidad Metropolitana de Ciencias de la Educación* –UMCE– in its reformulation process, has considered that it would be an honour to have you as a member of the Program Academic Staff as Visiting Professor. Therefore, we cordially invite you to join this external Academic Staff. We are sure that your participation will strengthen personal and professional ties between the research groups of our respective institutions and raise the academic level of the education that we provide in our PhD Program.

Visiting Professor participation in our Doctoral Program in Education implies that we will have to establish some simple procedures that allow academic exchange concerning the research developed in our institutions.

In our Program, a Visiting Professor can be part of Evaluation Commissions or participate as Co-supervisor of Doctoral Theses, together with a Principal supervisor of our Institution. In addition, Visiting Professor can contribute with their expertise in virtual sessions, in any of our core courses or deepen courses (inter and cross-disciplinary courses), according to their availability.

Reiterating our recognition and appreciation, we send our best regards and wish for mutual long and beneficial academic relationships.

Dr. Jorge Rodríguez Becerra
Director
Doctorate in Education
Program
UMCE
