Please note: last day for signing up is Sunday 27 November!

This year we will be in Lund, Sweden 30 November with the theme “**Envirotyping for plant breeding and precision agriculture**”. The meeting is the day after the Göte Turesson seminar commemorating 100 years since the term Ecotype was coined.

Program

Venue: Blue Hall, Ecology Building, Lund, Sweden (Sölvegatan 37)

We are happy to have the following speakers during the day:

- Antoine Harfouche (UNITUS): “Leveraging Explainable Artificial Intelligence to Advance Plant Phenomics Research and Decisions
- Jose Luis Araus Ortega (University of Barcelona): “On-farm crop phenotyping”
- Fred Stoddard (University of Helsinki): “Fitting faba bean for high-latitude farming”
- Therese Bengtsson (SLU): “Pre-breeding for adaptation of spring barley to Northern latitudes”
- Nasir Uddin and Erik Swan (Husqvarna group) “AI and data science in a forest, green space and garden outdoor equipment company”
- Florent Abdelghafour (INRAE) “Hyperspectral imaging in agriculture”
- Ajit Nehe (SLU) “Phenotrolley: Affordable Phenotyping System for Controlled Growth Conditions”
- Chandana Pandey (University of Copenhagen) “Impact of drought on barley resistance against fungal pathogens by highthroughput multispectral, microscopic and physiological phenotyping”
