

CERTIFICATE

Kamrul Faisal

()

has completed the training programme
Projektissäät – Project Aces
23 November 2018 – 27 March 2019
(total 135 hours)

In the Project Aces training multidisciplinary student team of 3-5 members works with a specific project for three months. Project is a genuine development task defined by a client.

Programme develops competence in project management, teamwork and problem solving. It provides experience in genuine development challenges, working with a client and working with experts from different backgrounds.

The clients of the training represent the local business, NGOs and public organisations. The programme includes also training days and meetings supporting the successful execution of the project. The training programme is coordinated by the Career Services at the University of Turku. The training is designed together with the higher education institutions in Turku and the City of Turku.

Student participated in the team whose project (135 hours / student) was to help Heimo-koru by supporting product development with crowdfunding campaign. The project was executed in English.

Turku 27 March 2019
