Meritförteckning

Dr. Markku Kanninen is the professor of Tropical Silviculture and Director of Viikki Natural Resources Institute (VITRI) at the University of Helsinki, Finland. He is an expert in tropical forestry, climate change, forest ecology, and forest management. He has published over 350 publications, including over 100 internationally peer-reviewed scientific articles. He has been involved in tropical forest research for about 40 years. Prior to his current position, he was Director of the Environmental Services and Sustainable Use of Forests Program of CIFOR (2003-2010); Deputy Director General of CATIE (Costa Rica) (1996-2003); and earlier the Director of The Finnish Research Program on Climate Change (1990-1995).

He has been involved in science policy dialogue on forests and climate change for 25+ years, and he has been actively involved in the work of the Intergovernmental Panel on Climate Change (IPCC) since 1990. He was a Lead Author of the recent IPCC Special Report on 1.5 Degrees. He is member of the Finnish Climate Panel since 2011.

Since 2004, he has been a member of the Finnish Academy of Sciences and Letters. He received the Nobel Peace Prize as a member of the IPCC in 2007.
